Dear Mr. Simms:

This in regard to your request for UL to provide a statement verifying that the NP3101 compound contains the raw materials and part levels as listed in UL Follow-Up Service Procedure R19084, Vol. 1, Sec. 1. The formulation for the product covered in the afore mentioned was initially witnessed and tested by a UL representative and is subject to verification by a UL Field representative on a quarterly basis.

The Classification Marking of Underwriters Laboratories Inc. on the product is the only method provided by Underwriters Laboratories Inc. to identify products, which have been produced under our Follow-Up Service Program.

If we can be of any further assistance, please let me know.

Very truly yours,

Karen Foxx-Smith
Engineering Associate
