

Did you know we have...

OW Lee's dedication to quality is evident in every piece of our handcrafted furniture. Specializing in metal outdoor furniture, you will find welds that are ground so smooth that intersections between parts appear nearly seamless. Our "trademark" hot rolled detailed scrolls are fashioned with the same forging techniques artisans have used for centuries. OW Lee casual furniture is made to last for generations, and has the quality and value you would expect from American made heirloom furniture. OW Lee is also committed to ongoing sustainability and environmental stewardship within our engineering and manufacturing operations.
