### Danielle Fence Encourages Hurricane Readiness at Polk County Hurricane Expo

Mulberry, FL, June 8, 2009 — Danielle Fence Manufacturing Company, Inc., continued a long-standing tradition of encouraging hurricane readiness by participating in the Polk County Hurricane Expo on Saturday June 6, 2009.

Every year, Florida is faced with the possible threat of tropical storms and hurricanes. Potential Damage to property and loss of life can be mitigated by taking precautions well in advance of a pending storm threat. For more than 33 years, Danielle Fence has encouraged and continues to support individual and community hurricane-readiness efforts.

“The Polk County Hurricane Expo is a great way to meet people face-to-face and openly discuss the preparations we all should be making to become more prepared and ready if and when a tropical storm or hurricane hits. Events like this enable us to show specific Miami-Dade County NOA HVHZ approved products offered at Danielle and how these certified products assist in hurricane readiness efforts.” stated Todd Weihmeir, Director of Residential Sales and Services at Danielle Fence.

Danielle Fence, Director of Marketing, JT Vikari, commented, “Increasing awareness through education on how-to properly secure home and family in the advent of a hurricane is the centerpiece of Danielle’s **Hurricane Ready System (HRS)**. Offering products specially designed and rigorously tested that carry the Miami-Dade County Notice of Acceptance (NOA) is a big differentiator.”

### **Hurricane Readiness cont...**

At the event, Danielle Fence introduced several new products and services designed for High Velocity Hurricane Zones (HVHZ) including fences and a Special Report: Hurricane-Resistant Landscaping. The report contains valuable information including some simple steps anyone can take to create a "hurricane-resistant" landscape. In addition, new product lines including: fence, deck, railing and outdoor living products like pavers, curbing, and wall systems along with solutions to resurface the areas around pool and spa.

Danielle Fence, established in 1976 is widely recognized with more than 5 million linear feet of residential and commercial fencing applications throughout communities across the state of Florida. That is enough fencing to encircle the globe more than 200 times. Thirty-three years later, Danielle remains a family-owned and locally-operated business. As an award-winning industry innovator, Danielle specialize in the design, fabrication, manufacture, wholesale and distribution of an extensive selection of outdoor living décor including fence, deck and rail systems in aluminum, PVC, wood and polyethylene. To complete an outdoor living space, a wide selection of pavers, walls, curbs arbors, gazebos, furniture and water falls, ponds and features are also available. Danielle introduces the latest product lines: Simulated Stone, Miami-Dade NOA Approved High Velocity Hurricane Zone and wood-grained/textured fencing products. We proudly offer pavers, wall systems, curbing and solutions to resurface the areas around your pool/spa. Whether professionally installed or DIY, Danielle offers solutions that make backyard backyards beautiful.
